

Cold Brew Coffee on Tap

Introducing our US Coffee Cold Brew Program

US Coffee is excited to announce our first ever Cold Brew Program, featuring City of Saints cold brew coffee on tap.

Our cold brew kegerators are the perfect solution for medium-to-large offices that love iced coffee and have limited fridge space. They're easy-to-serve, flexible, and mobile, making them an ideal addition to any break room or office kitchen.

Cold Brew Program:

- Designed for offices who consume 30+ cups of iced coffee/day or have minimal fridge space
- Contains wheels for flexibility & mobility
- Holds 5 gallons of City of Saints cold brew
- Free installation and maintenance
- Requires keg deposit & nitrogen gas refills; loaned for no charge

CITY OF
Saints
COFFEE ROASTERS

US Coffee has teamed up with City of Saints, a local artisan roaster from Brooklyn, to bring you the freshest quality of cold brew available. Their cold brew is brewed and stored cold from start to finish, and clean filtered to stay fresher longer.

There'll be no more need for pricey out-of-office iced coffee runs with our cold brew program. You won't have to settle for watered down brew over ice drinks either. A refreshing glass of cold brew will be waiting for you on tap, just across the hall, a few feet from your desk. You're welcome.
